Get The Advantage

Mink

2007 Catalog

From the quality of our products to our customer service, we at Airtronics are dedicated to what we do best and will continue to provide great products and service to all of our customers.

Our Goal

Continue manufacturing top quality products supported by the best customer service in the radio control market.

Contact Us

Customer service representatives are available Monday thru Friday at the following times.

Monday thru Friday 7:00am ~ 3:30pm

Phone: 714-978-1895

Stylus

8 Channel
FM, FM-INV, PCM
4 Model Memory, Expandable

For years the Stylus has held its own when it comes to true world class competitions all over the world. In August of 2006, The Junior F3J team dominated the sailplane competition in Martin Slovakia.

We would like to congratulate:

The Junior **USA Team** 1st
Team Members/Stylus Pilots

Cody Remington 1st
Casey Adamczyk 3rd
Joseph Newcomb 6th

The Stylus is designed with the true competitor in mind. Whether flying sailplanes, helicopters or fixed wing aircraft, the Stylus can be programmed to fit your every need.

A unique feature of the Stylus is the ability to take flying to the next precision level using the Advanced Feature Cards. Stylus Feature Cards allow you to be more flexible and creative when programming any aircraft.

The Stylus is Available in many different system configurations or, as a transmitter only version.

Get the advantage, get Airtronics.

Stylus

Standard System Features

End Point Adjustment, Servo Centering, Servo Reversing, Dual Rates, Alternate Setup, Trim Memory, Switch Assignability, Voltage Display, Stopwatch / Timer, Mode I/II Selection, Modulation PPM/FM PPM/PCM PPM/FM Invert, 4 Model Memory, Model Naming, Model Reset, Model Copy, Feature Card Access, Plug-in Module, Display Switch, Direct Servo Controller, Fail Safe (PCM Mode), Battery Fail Safe, Low Voltage Alarm, Switch Position Alarm, Contrast Adjustment, Exponential

Stylus Standard System Features For Power Aircraft

Expanded Exponential, 4 Snap Roll Programs, 2 Bi-Directional Mixing, 3 Compensation Mixing, Elevator/Flap Mixing, Flap/Elevator Mixing, Spoileron Mixing, Aileron Differential, Spoiler/Elevator Mixing, Cross Trims, Twin Throttle Option, 2 Aileron/Rudder Mixers

Stylus Standard System Features For Sailplane

Flight Mode Switch, 3 Elevator Presets, Aileron Differential, Landing Differential, 3 Aileron/Rudder Mixing, Flap/Elevator Mixing, Camber/Elevator Mixing, Spoiler/Elevator Mixing, Elevator/Camber Mixing, Crow Mixing, V-Tail Mixing, Gear/Elevator Mixing, 2 Aileron Servo Capability

Stylus Standard System Features For Helicopter

Exponential Response, 4 Flight Modes, 4 Pitch Curves (5 Point), 3 Throttle Curves (5 Point), Flight Mode Trim Offsets, 4 Revolution Mixers, Throttle Hold, Hovering Throttle Trim, Hovering Pitch Trim, High Pitch Trim, Low Pitch Trim
1 Compensation Mixer

8 Channel FM or PCM Receivers

1100 mAh NiCd Optional Battery Pack

STYLUS FEATURE CARDS

96811 Stylus Acro Card Features

- Servo Movement Analysis Screen
- Throttle Curves
- 2 Idle ups
- 5 Multi Point Compensation Mixers
- Expo for Ailerons, Elev and Rudder
- VTR for Ailerons, Elev and Rudder
- End Point Adjustment
- Triple Rate Aileron
- Triple Rate Elevator
- Dual Rate Rudder
- 4 Snap Roll Programs
- 5 Compensation Mixers
- Programmable Comp Delays
- 3 Bi-Directional Mixers
- Gain Control for Bi-Directional Mixers
- Elevator/Flap Mixing
- Flap/Elevator Mixing
- Spoileron Mixing
- Aileron Differential
- Spoiler/Elevator Mixing
- Elevator/Flap/aileron Mixing
- Fun Fly Mixing
- Dual Aileron
- Dual Elevator
- Ailvator
- Aileron/Elevator Mixing
- Twin Throttle Option
- Twin Landing Gear
- Throttle Hold for Twin Throttles
- 2 Alternate Set Ups
- Cross Trims Ail, Rud / Thr, Elev
- Trim Authority Adjustment
- Automatic Trim Offset
- Dynamic Trim Memory
- Assignable Auxiliary Controls
- Assignable Stick Switches
- Programmable Mixing Delays
- Programmable Channel Delays
- 4 Flight Modes

96803 Stylus Glider Card Features

- Expo for Ailerons, Elev and Rudder
- VTR for Ailerons, Elev and Rudder
- Dual Rate Aileron, Elev and Rudder
- 3 Position Flight Mode Switch
- 3 Elevator Presets
- Aileron Differential
- Launch Differential
- 2A 2F E R Aircraft Template
- 2A/2F<->E R Aircraft Template

- 3 Aileron/Rudder Mixing
- Aileron/Flap Mixing
- Flap/Elevator Mixing
- Camber/Elevator Mixing
- Spoiler/Elevator Mixing
- Gear/Elevator Mixing
- Elevator/Camber Mixing
- Crow Mixing / V-Tail Mixing
- 3 Compensation Mixers
- Comp Programmable Delays
- Trim Authority Adjustment
- Automatic Trim Offset
- Dynamic Trim Memory
- Assignable Auxiliary Controls
- Assignable Stick Switches
- Programmable Flight Mode Delays
- Programmable Mixing Delays
- Programmable Channel Delays

96813 Stylus Helicopter Card Features

- Expo for Pitch, Roll and Tail Rotor
- VTR for Pitch, Roll and Tail Rotor
- Triple Rate Aileron
- Triple Rate Elevator
- Dual Rate Rudder
- 5 Flight Modes
- 5 Five Point Pitch Curves
- 4 Five Point Throttle Curves
- Throttle Hold
- Trim Offsets for each Flight Mode
- Automatic Trim Offset
- 9 Compensation Mixers
- 4 Normal Comp Mixers and
- 5 Comp Mixers with Curves
- Programmable Comp Delays
- 1 Bi-Directional Mixer
- Gain Control for Bi-Directional Mixer
- Hovering Throttle
- Hovering Pitch
- High Pitch Trim
- Low Pitch Trim
- 2 Gyro Gains for each Flight Mode
- Programmable Flight Mode Delays
- Programmable Channel Delays
- Dynamic Trim Memory
- Assignable Auxiliary Controls
- Assignable Stick Switches
- Throttle Stick Position Alarm
- Mixing Delays
- 2 Alternate Setups
- 9 Swash plate Types
- Servo Limit
- CCP Mixing
- CCPM Delays
- CCPM Linear Adjustment
- CCPM End Point Adjustment
- CCPM Servo Delay

RD8000

8 Channel
FM, FM-INV, PCM1, PCM2
10 Model Memory

The RD8000 is a full feature 8-channel system, packed with features and capabilities, for all types of aircraft. A top quality digital radio, the RD8000 is noted for its ease of operation and programming. Helicopter, fixed wing aircraft and sailplane pilots will all benefit when using the standard features of the RD8000.

Whether flying a basic model or one that requires advanced features, the RD8000 can do it all! One of the key features of the RD8000 is the ability to use both basic or advanced program menu.

The RD8000 makes programming easier by allowing you to turn off any programming screen not required. For example: You are programming your helicopter and set the CCPM to the correct configuration. You may now turn off this feature as it is set and saved. No chance of accidentally changing your settings!

The RD8000 has a feature called INV-PPM. This feature allows you to operate other brand FM receivers.

The RD8000 is available in several different systems and also as a transmitter only version. This helps keep the cost down and your planes flying fast and easy.

Systems includes:

Transmitter
Receiver
Servos
Aileron Extension
NiCd Batteries
Dual Charger
Switch Harness

VG6000

6 Channel
FM
4 Model Memory

The Airtronics VG6000 is one of the best selling computer radios on the market and by far the easiest to program. All programming is entered on one menu screen without having to backup in any menu. This ease of programming has converted many pilots away from analog radios and go digital.

The VG6000 is loaded with features that will please fixed wing aircraft fliers. If you haven't owned a computer radio before, the VG6000 should be your first choice. It's that simple!

Light to the touch but solid as a rock, the VG6000 is just a joy to fly and own.

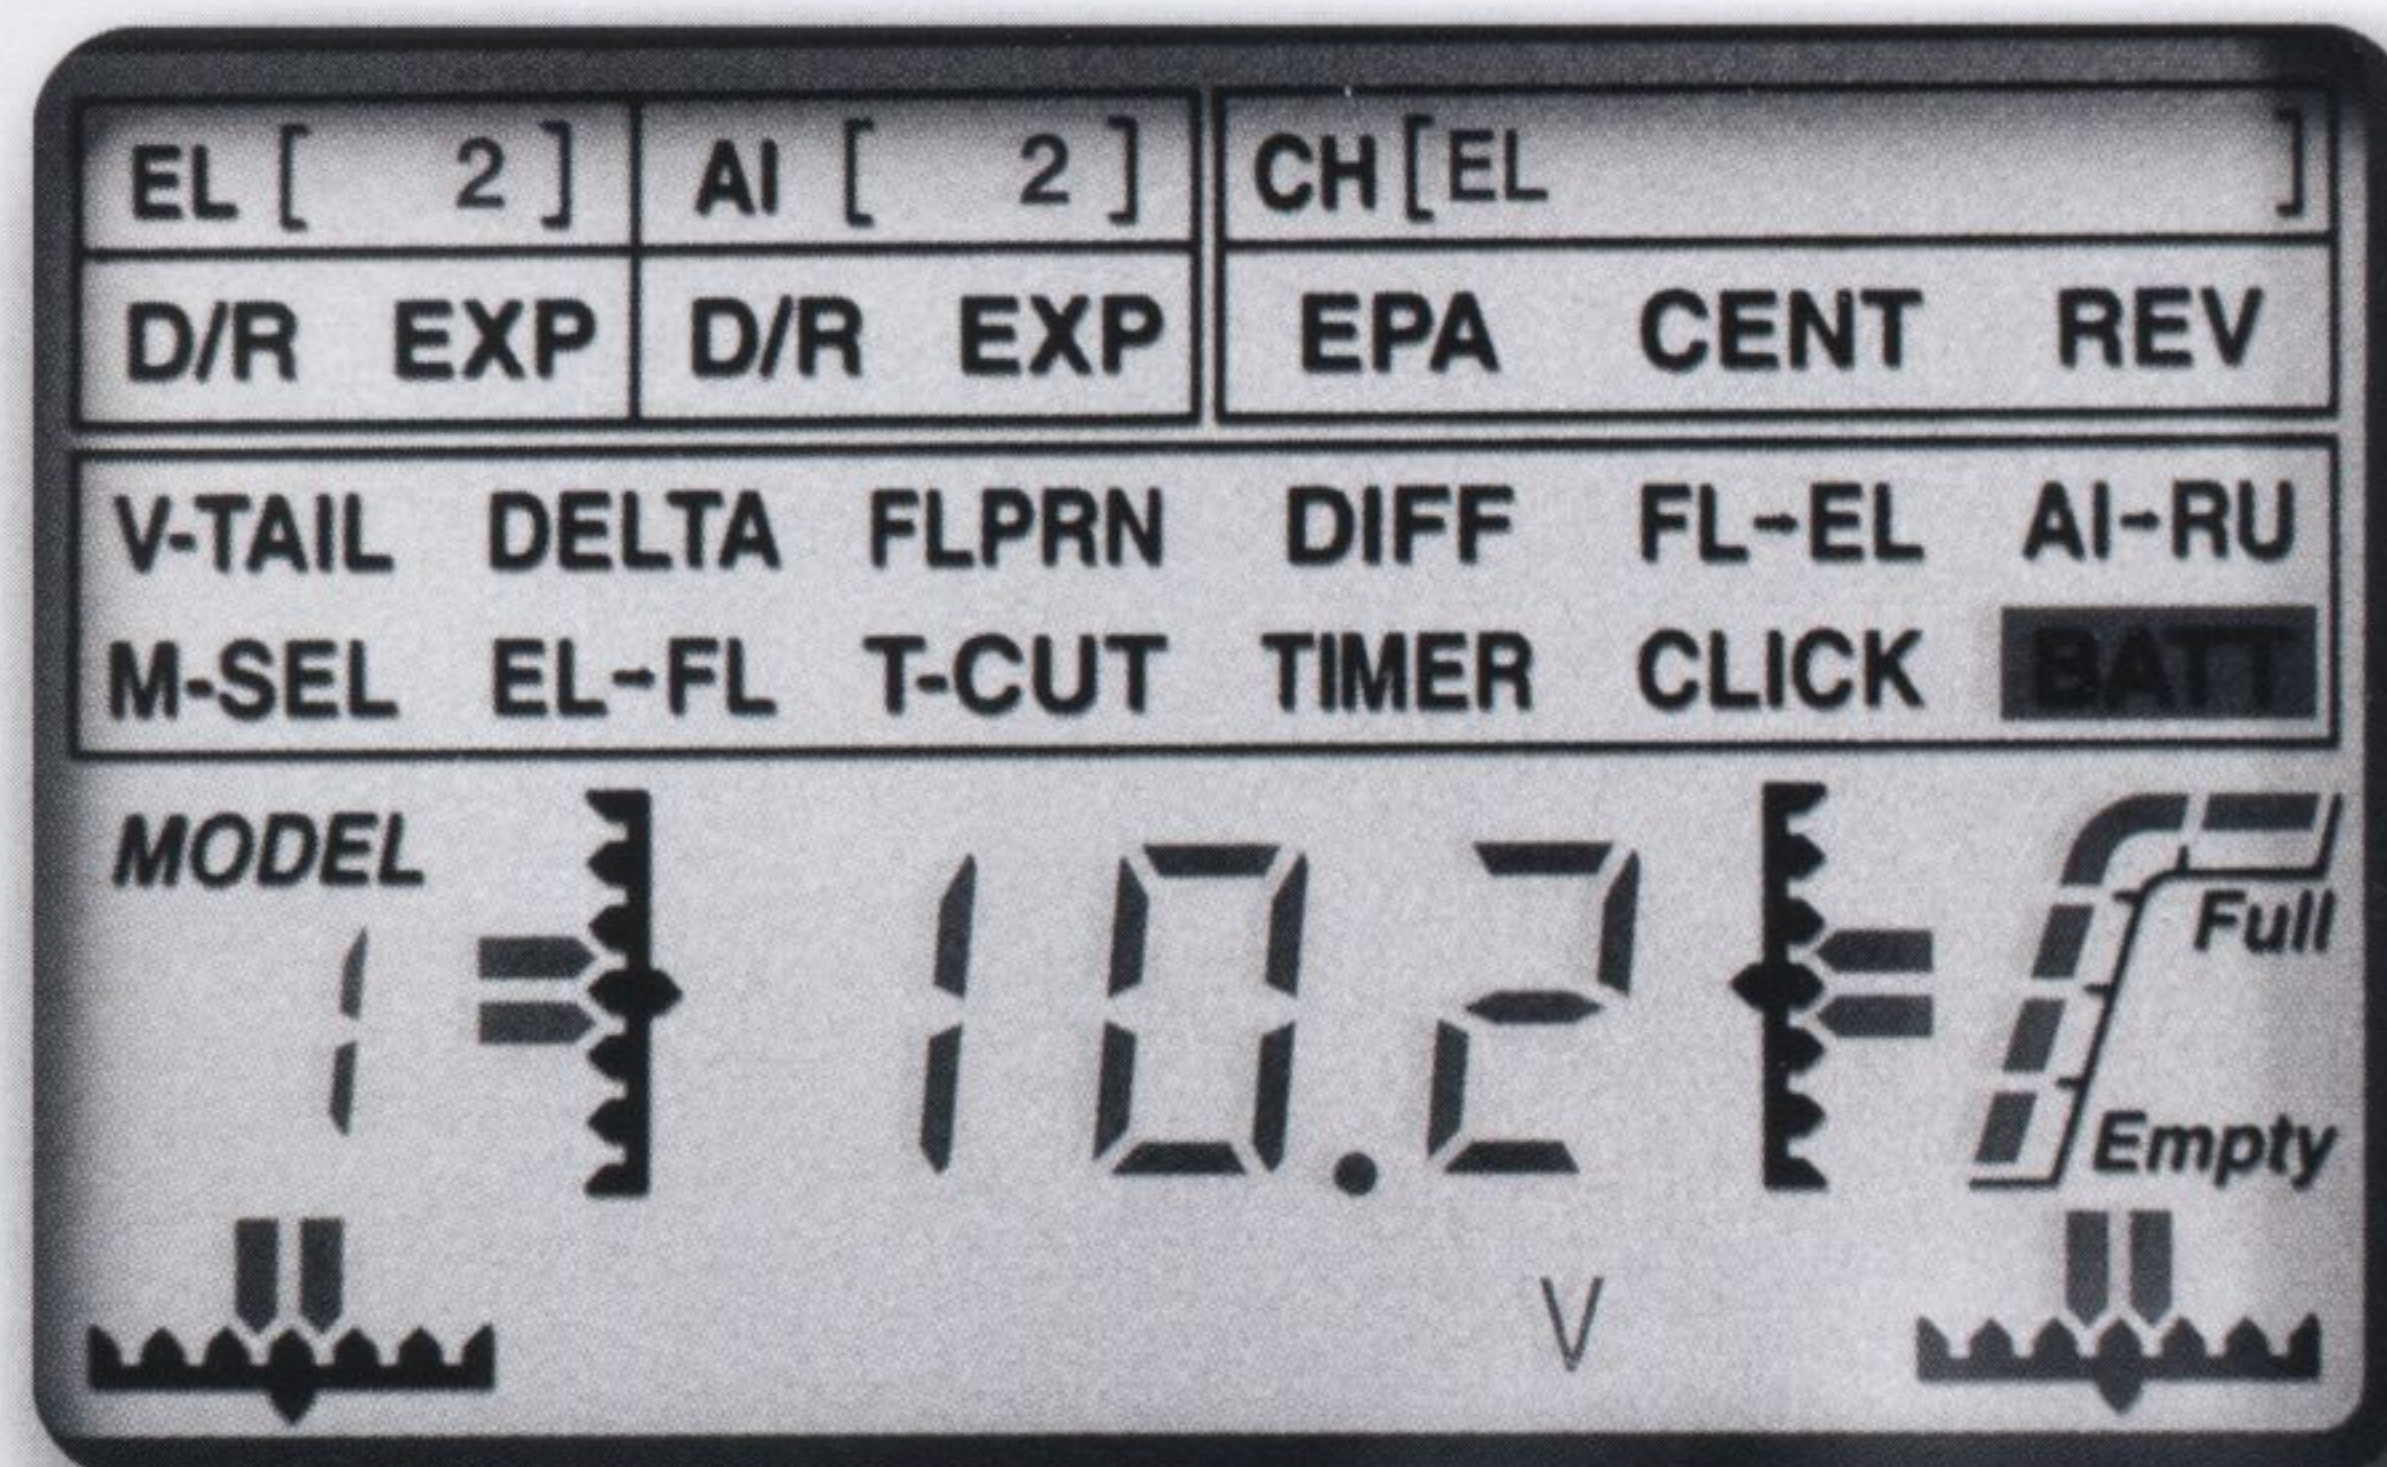

3 Position flap switch, Retract switch, Digital trims, Dual rate Ailerons and Elevator, Trainer System, Throttle Cut and much more comes in the VG6000.

Systems includes:

Transmitter
Receiver
Servos
Aileron Extension
NiCd Batteries
Dual Charger
Switch Harness

VG600

6 Channel FM Analog Radio System

Need another radio system for that basic just to have fun with airplane? The VG400 and VG600 are our basic FM analog radio systems that not only keep things simple, but have just the right amount of features needed to fine tune your model. Both the VG400 and VG600 transmitters include stick height adjustment as well as stick tension adjustment. EPA or (End Point Adjustment) makes setting your control surfaces easy and quick. LED battery light indicators let you know the status of the transmitter battery so you can see when your batteries need a charge.

The VG400 and VG600 radio systems are equipped for use with the Airtronics VG400-TR buddy box. Simply plug in the buddy box trainer cord and you are ready to learn to fly.

Systems are available in many different servo combinations.

MX-3 FHSS

3 Channel
2.4 GHz Radio System
18 Model Memory

The new MX-3 FHSS (Frequency Hopping) 2.4 GHz Spread Spectrum radio system is based on the revolutionary MX-3.

Now you can have crystal FREE, interference FREE performance in the comfortable MX-3 chassis.

The MX-3 FHSS has all the features of the MX-3, plus 18 Model Memory. You can save all of your models and setups in one transmitter and be on your way to the track.

Never worry about having the correct crystal, because you have crystal FREE, interference FREE 2.4 GHz technology.

The MX-3 FHSS is available as a transmitter and receiver system that includes: 2.4 MHz Transmitter, Receiver and Dry Battery Holder. Additional 2.4 GHz 92324 3 channel receivers are available separately.

Optional NiCd Transmitter Battery Pack

700 mAh 95046Z
1,100 mAh 95053Z

18 MODEL MEMORY

M11

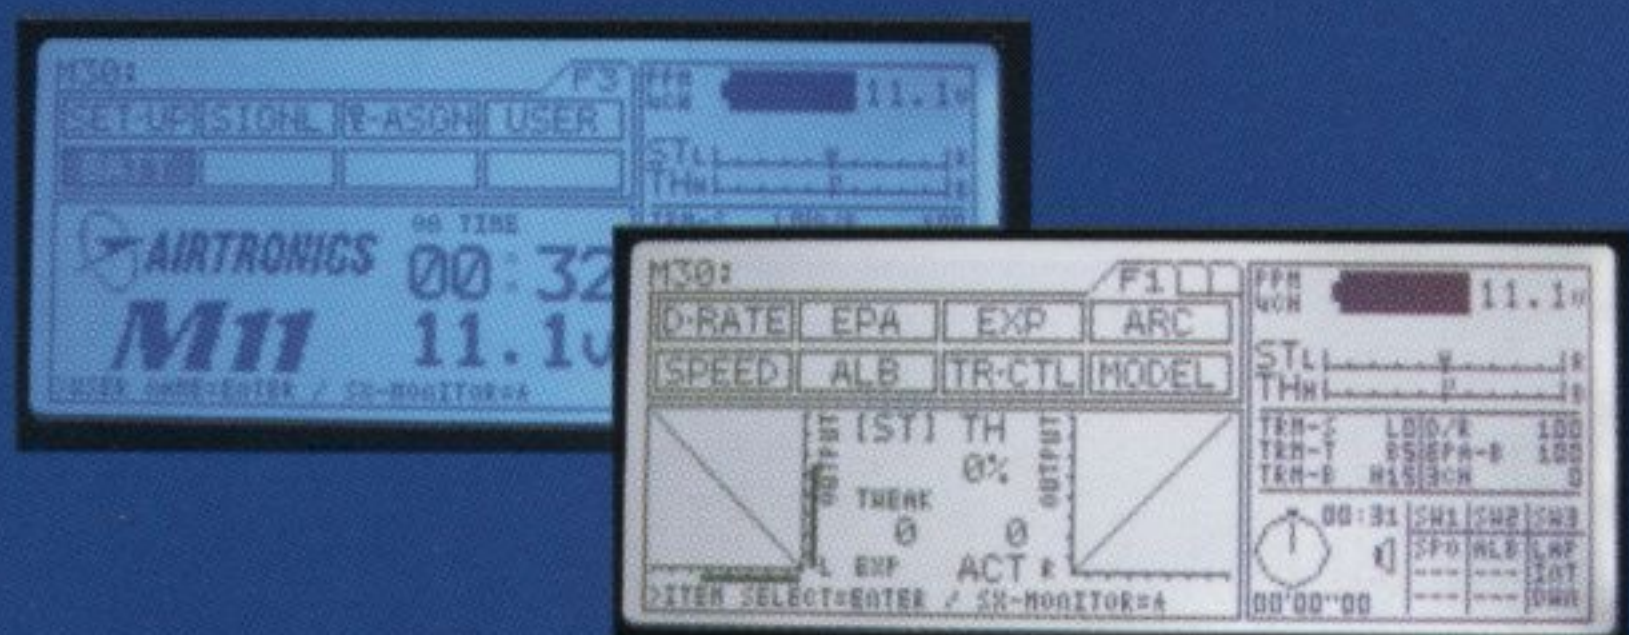

2 / 4 Channel
FM
30 Model Memory

When it comes to pistol grip radio systems, Airtronics can't be beat. Our new M11 system is built, from the ground up, with more features than you can imagine. Features that not only improve the way your car handles but will change the way you think about driving. The M11's innovative design and software provide the driver with the ultimate in feel, speed and control. The M11 continues the tradition of Airtronics award winning surface systems.

New programming screens make setups fast and easy.

The M11 has a user selectable feature that allows you to switch from a 2-channel to a 4 channel system in a flash. Switching the M11 to a 4 channel system will turn on more features with channel mixing as well.

Pro drivers, all over the world, find the M11 is changing the way they think about driving.

- Large LCD Display
- Left or Right Hand Grip
- Removable RF Module
- FM 27 or 75 MHz
- Digital Trim
- Key-Lock
- Display Switch
- Adjustable Handle
- Adjustable Steering Wheel Tension
- Adjustable Throttle Tension

92724 2.4 GHz 4 Ch Receiver

CNC Aluminum Parts:

- Steering Wheel
- Module Heat-Sink
- Custom Engraved Servo Heat-Sinks

What do you get when you take the best selling, top of the line radio system and jazz it up? The new M11 Prestige. We put together a super high-end system with some added CNC aluminum parts that includes 2 Rock-crusher servos. This is truly the best of all radio systems. Available in blue or purple.

MX SERIES

MX3S Synthesized FM
MX3 Crystal FM
MX3-A Crystal AM

Airtronics has for many years engineered top performance radio systems that just can't be beat. The Airtronics MX-3S is no exception. Besides being the ultimate MAXX upgrade, the MX-3S will undoubtedly make you a winner in any kind of racing. We packed many features in the MX-3S that will get you dialed in fast since it is a computer radio, you will be able to adjust to any track and any condition in a flash. Tired of taking more than one transmitter to a race? Not a problem with the MX-3S because it has 18 model memory. Just take a look at all the features that come standard with the MX-3S.

MX-3

Our MX-3 started the new wave of computer pistol grip radios for drivers requiring precision and performance. Packed with all you need to get up and running fast, the MX-3 comes with all the features of the MX-3S but as a non synthesized version with 5 Model Memory.

MX-A

The MX-A is for AM drivers that have many kinds of RTR cars and trucks. Now you can program all of them into one AM computer transmitter. The MX-A comes with all the features of the MX-3 plus 12 Model Memory, and the new Micro AM 2 Channel or 3 Channel Receiver.

Optional Transmitter NiCd Battery

BLAZER, AVENGER

Sport

The BLAZER Sport is your best choice to start racing of any kind. Built with the same digital technology as our top of the line M11, you will definitely have total control. Feel the smoothness of the steering wheel or trigger and you will know it is well designed. The BLAZER Sport comes standard with:

Ergonomic Control Grip, Bright LED Power Indicators, True Grip Plastic Steering Wheel, Throttle and Steering Trims, Smooth Action Throttle Trigger, Adjustable Trigger, Steering Dual Rate, Charging Adaptor (For NiCd Batteries) Wrist Strap Support, 2 Channel AM Receiver, 4 Cell Receiver Battery Holder, Switch Harness, Reverse Switches for Steering and Throttle.

AVENGER AV2X

There's no better way of getting into the R/C hobby of cars and boats on a budget than with the Avenger AV2X R/C system. The AV2X 2 channel AM system features a functional two-stick design and finely crafted appearance. Compare these features with any system in its league: Servo reversing on both channels, Low voltage audio alarm, Mechanical steering EPA, Throttle kick down, Plug in Crystals, easy to use battery indicator, NiCd charge jack, two single axis stick assemblies, compact, Light weight mini receiver and complete operational hardware. The Avenger AV2X comes with 2-94102Z Standard Servos and is available on either 27 or 75MHz

SERVOS

Quality, Dependability and Durability are just some of the things people say when describing Airtronics Servos. Available with the "Z" connector, all of our servos are fully compatible with other manufacturer's systems. Features include custom I.C's, Surface Mount Technology (SMT) construction and splined output shafts for accurate control surface movement. Molded neoprene vibration isolators and injected molded servo cases ensure superior strength and lasting durability. All of our servos are manufactured with rugged heavy duty gear trains and are fully compatible with all Airtronics AM, FM and PCM systems.

RECEIVERS

AM
FM, Synthesized
PCM

Airtronics manufacturer's receivers for any aircraft or surface vehicle from AM to FM, Single Conversion to Dual Conversion, PCM to 2.4 GHz, we have them all.

For our Surface line, we have many new receivers to choose from. New in our line up are the 2.4 GHz receivers. The new 2.4 GHz receivers can handle any kind of race track you can possibly think of.

Our aircraft receivers are designed to be the most reliable receivers on the market.

Park flyers will like our micro S/C 5 and 6 channel receivers.

Reliable, Dependable and all receivers include a crystal.

SPEED CONTROLLERS

AIRCRAFT

New for our ESC line is the BL-Force. The BL-Force has a feature that will give you not only adjustable braking power but also has reverse. Now how do you get brakes and reverse in one electronic speed controller. Here is an example on how the new BL-Force works. Under normal racing conditions, your pulling the trigger heading for the next turn, you release the trigger and start pushing it to apply the brakes. All is good and your just about to pass someone when BAM! you get hit and your front-end is against the wall and you need to get back in the race fast. Now push the trigger a second time, and you have reverse. Sometimes you just can't wait for someone to turn your car around. Now just pull the trigger and get back into the race.

Radio systems without ALB will truly benefit with the Airtronics ALB Booster. Fully adjustable and ready to go.

Park flyers with stock brush motors will enjoy the 64 step ESC 96334Z. From off to full throttle you can feel how smooth the speed transaction operates.

**96334Z Super Micro
AIRCRAFT Speed Controller**

Dimensions: - 1.00"x0.50"x0.25"
Resistance: - 0.0035
Total Weight - 0.15 grams
Voltage - 7.2 ~ 9.6
Maximum Amp: - 120A
Continuous: - 20A
Power Cutoff - 4.8 ~ 5.0V

With the ever growing popularity of backyard flyers, Airtronics has a speed controller with variable speed that is not only small but light weight with Auto Cut Off and BEC circuitry.

**96333Z AIRCRAFT
Speed Controller**

Dimensions: - 1.375"x0.87"x0.48"
Resistance: - 0.006
Total Weight - 0.19 grams
Voltage - 7.2 ~ 9.6
Maximum Amp: - 88A
Continuous: - 20A

Auto Cut Off and BEC circuitry.

SURFACE

BL-RACER SURFACE 96305Z
Speed Controller

Dimensions: - 1.80"x1.60"x1.02"
Surge Current - 360 Amps (Forward)
 180 Amps (Reverse)
Continuous Current - 90 Amps (Forward)
 45 Amps (Reverse)
Loss Resistance - 4.5mOHM (Forward)
 9mOHM (Reverse)
Total Weight - 1.94oz
Voltage - 7.2 ~ 8.4
Motor Limit- 18 Turn

Features: Micro Light Weight FET High Frequency ESC with Reverse. Super Smooth acceleration and added protection against overload or overheating. Reverse Cancellation can be adjusted just by using the set button and LED light on the controller. Stop wasting energy with a mechanical speed controller. Get into an Electronic Speed Controller with the BL-RACER.

BL-FORCE SURFACE 96310Z
Speed Controller

Dimensions: - 1.19"x1.19"x0.79" (Without Switch Plate)
Surge Current - 600 Amps (Forward)
 240 Amps (Reverse)
Continuous Current - 150 Amps (Forward)
 60 Amps (Reverse)
Loss Resistance - 6.2mOHM (Forward)
 7.6mOHM (Reverse)
Total Weight - 1.52oz
Voltage - 7.2 ~ 8.4
Motor Limit- 18 Turn

Features: Micro Light Weight FET High Frequency ESC with Reverse. Super Smooth acceleration and added protection against overload or overheating. The BL-Force is designed to fit in a molded switch retainer that can be mounted in four different positions.

F-2000 SURFACE 96316Z
Speed Controller

Dimensions: - 1.80"x1.60"x1.02"
Surge Current - 800 Amps (Forward)
 400 Amps (Reverse)
Continuous Current - 200 Amps (Forward)
 100 Amps (Reverse)
Loss Resistance - 3.5mOHM (Forward)
 7mOHM (Reverse)
Total Weight - 1.94oz
Voltage - 7.2 ~ 8.4
Motor Limit- 13 Turn

Features: Micro Light Weight FET High Frequency ESC with Reverse. Super Smooth acceleration and is well protected against overload or overheating. Reverse Cancellation and accelerations can all be adjusted just by using the set button and LED light on the controller. Get one step in front of the pack with the F2000 ESC. 3 Programmable Acceleration modes.

F-3000 SURFACE 96317Z
Speed Controller

Dimensions: - 1.80"x1.60"x1.02"
Surge Current: - 2000 Amps
Continuous Current: - 500 Amps
Loss Resistance: - 0.7mOHM
Total Weight - 1.94oz
Voltage - 7.2 ~ 8.4
Motor Limit- 10 Turn

Features: Micro Light Weight FET High Frequency ESC. Super Smooth acceleration and is well protected against overload or overheating. Get one step in front of the pack with the F3000 ESC. 3 Programmable Acceleration Modes.

ALB Booster SURFACE 96900
Attention Car Racers!

A winning advantage for any competitor! If you need the best Anti-Lock braking device for your gas powered vehicles, Airtronics has it. The ALB Booster plugs between your throttle servo and receiver to provide adjustments for servo speed, lag, stroke and point.
 Great for 1/8th and 1/10th scale nitro racers!
